Wednesday - Spelling

- Here are your spellings for this week.
- Read them out loud to yourself. Think about their meaning.
- If you are unsure ask a grown-up to help you.
- Cover them up one by one and try to write them down correctly.
- Look at them to check they are correct or ask a grown up to check them for you.

Y3-4 home learning:

Expressing feelings

We are learning about expressing feelings

We will be able to:

- ✓ name a range of feelings and emotions
- ✓ match feelings to a scale of intensity and identify strong feelings
- ✓ describe different feelings and how they are experienced in the body
- ✓ recognise why it is important for people to express their feelings

Expressing feelings: What's our starting point?

Make a 'feelings' graffiti board.

On a piece of paper, jot down all of the words you can think of to describe feelings and emotions.

Feelings thermometers

Read the words from the **Feelings match up** sheet (on the next slide)

- Find the root words first.
- Now match the similar feelings words together
- Then organise them in order of intensity

Which is the biggest feeling?

- Write it down on a piece of paper like this example.

Pleased is the root word and overjoyed is the biggest, strongest or most intense feeling.

overjoyed

delighted

satisfied

pleased

Friday

happy

concerned

heart-broken

distressed

sad

cheery

cross

anxious

scared

furious

joyful

irritated

angry

petrified

upset

forlorn

worried

ecstatic

troubled

frightened

Expressing feelings

Choose one of the words that describes a 'big' feeling from your lists.

Now draw a body outline and draw or write on it.

- Where in the body might someone have that feeling?
- If the feeling had a colour, what would it be?
- If it had a shape, what would it be?
- If it had a texture, what would it be?
- If the feeling had a sound, what would it be?
- If the feeling were an image or a picture, what would it be?

Feelings imagery

Thinking of images can help us describe strong or intense feelings.

What feelings do these images make you think of?

Writing about feelings

Write a sentence to match each picture and describe the feeling you think it best represents.

For example: Like a little cat, outside and lost in a snowstorm, she felt lonely and afraid.

Why is it important to express feelings?

Expressing our different feelings helps us to recognise and manage them.

Expressing feelings can help stop strong or intense feelings from taking over our minds and bodies.

It helps us recognise when we might need help with our feelings.

Sometimes it is good for others to know how we are feeling — it helps them to help us.

Ways to express feelings

What are some of the different ways people can express their feelings?

writing – diaries,
poems, stories,
blogs

art – drawing, painting,
collage

talking to others

face and body

music

acting, dancing
and singing

Remember!

Expressing our feelings is important — it helps our minds stay well. There are many ways you can do this but talking to an adult you trust is one of the best ways.

**Talk to a trusted adult at home
or at school**

**ChildLine: www.childline.org.uk
0800 1111**

If you are worried about any feeling, always talk to a trusted adult about it.

If you want to talk to someone other than a parent or teacher, ChildLine can help. See:

<https://www.childline.org.uk/get-support/> or phone 0800 1111

Expressing feelings: Where are you now?

Go back to the 'graffiti board?' activity you did at the start.

Have you learned any new words or ways to describe feelings and emotions?

Add them to your graffiti board using a different coloured pen or pencil.

Additional activity

Produce a piece of artwork (a painting or collage) or descriptive writing (a poem or the beginning of a story) about feelings.

Jogging

Jog from one point to another and try your best to keep the same pace.

Press-Ups

You can put your knees on the floor to make the move easier.

Leg Raises

Lie on your back and slowly raise one leg. Lower your leg slowly back down to the floor. Repeat with the other leg.
