## Headteacher Comment

Welcome back!

We hope you enjoyed the half term holiday and the Halloween celebrations. Thank you to the kitchen staff who organised a Halloween themed lunch this week as a celebration for the children on their return to school. They prepared a Halloween menu in a spooky theme and the team dressed up in costumes and decorated the dining hall. A very eventful start to the term! The enrichment programme started again this week with an abundance of clubs on offer to the children. These clubs will run through to December. Any children in sports clubs need to make sure they are in the appropriate PE kit for their sporting activity.

Our Y2 classes enjoyed a trip to the fire museum as part of their topic work and to enhance their learning experiences. As always, they not only had fun but represented the school well and behaved impeccably. Thank you to the Y2 team for organising the trip and to all the staff attending. A good time was had by all!

Many Thanks

Will robots make the world a better place?

### In the news this week

A robot named Ai-Da has become the first robot to speak in the House of Lords in Westminster, London. The robot spoke to the House about Artificial Intelligence (AI) and the future of arts, fashion, and music. Ai-Da's creators hope that she will give the House of Lords and others a fresh perspective on how technology can be used to create art in the future. Built in Cornwall by Engineered Arts, Ai-Da was then programmed by an international team and named after English mathematician, Ada Lovelace.

#### Things to talk about at home ...

- What do you think about a robot producing art? How is it different, in your opinion, from art produced by a human?
- What do you imagine robots might be like in the future? What kinds of things do you think they might be able to do?
