Headteacher Comment

This week has been science week and classes have been conducting a variety of investigations and experiments. Children have been completing activities on 'connections'. We have also celebrated Red Nose Day today and focused on the theme of supporting those in need during the current cost of living crisis. The particular key areas of focus have been lack of food, poverty and homelessness.

At PCA, we combined this event with Mad Hair Day to ask for donations of Easter eggs and chocolate for the parent council. Our parent council will use all these donations in their Easter Bingo event on Thurs 23rd March.

Please don't forget to book your parents' evening appointment and attend school on Monday 27th March to find out about your child's progress. This term is a face-to-face event so that you have the opportunity to see work books.

Many Thanks.

This week children have celebrated science week with a focus of 'Connections'. Children across the school have dedicated one afternoon to being scientist and conducting various experiments. Some children have also attended virtual science workshops, year 2 attended the workshop about how tractors are connected to space! Some juniors attended other virtual workshops, some looking at how we can extract DNA from strawberries!

Eloise took great interest in our picture news this week. She created a poster to promote all she learned about hazel dormice and how we can do more to protect them.
