

MFL Statement of Intent

'To speak a language is to take on a world, a culture'. Frantz Fanon

Learning a foreign language is a necessary part of being a member of a multi-cultural society and provides an opening to other cultures. The teaching of languages is important to broaden young people's horizons and helps turn them into global citizens. It enables children to experience different cultures while providing them with practical skills for travel and holidays. MFL helps children reflect on the grammatical structure of their own language. The teaching will enable children to express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing. At primary level, it prepares children for secondary school language learning, which opens doors to university or employment.
